University of Mindanao — Tagum ·
With honors
2019 – 2020

Best in Computer Award · ICT Club
President (3 yrs)

PROFILE

Full-stack web developer with a front-end focus, building production web apps for fintech, banking, and healthcare companies in React, Next.js, and TypeScript. I care about interfaces that feel effortless — fast, legible, and honest about what they do — and I keep pace with the AI-assisted shift in how we build. Seeking a web developer role where I can fully apply my experience and passion for web development.

WORK EXPERIENCE

Front-End Developer

Jun 2024 – Present

Webee Labs (Born Digital, Malta) · Remote

- Build production websites for client companies across fintech, banking, and healthcare.
- Delivered the site for a national bank in Malta using Next.js and Tailwind CSS.
- Work mainly in React and Next.js on a remote-first team.

CS-IT Instructor

Aug 2024 – Aug 2025

University of Mindanao — Tagum · Part-time

- Taught computer-science and IT courses, including Java and Python; explaining code to students sharpened my own clarity.

Website Developer — Intern

Jul 2023 – Aug 2023

Provincial Government of Davao del Norte (eGov Office)

- Built the dashboard for a Project Management System in Angular (work-from-home).

Website Developer

Feb 2022 – May 2022

Salv-C Industrial Supply and Services

- Developed a static business landing page in HTML and CSS.

IT Intern

Jan 2019 – Mar 2020

Tagum City PEESO Office

- Provided IT and office systems support during on-the-job training.
